Home Economics	<b><u><a href="#">FOODS AROUND THE WORLD PROJECT</a></u></b>	<b><u><a href="#">FOODS AROUND THE WORLD PROJECT</a></u></b>	<b><u><a href="#">FOODS AROUND THE WORLD PROJECT</a></u></b>

It might be unlikely that we'll be going abroad on our summer holidays this year... but you can still learn more about other countries by completing this Foods Around the World Project!

1. Choose a country which interests you and investigate the following topics in that country:
  - Geography
  - Climate
  - Agriculture
  - Social Customs
2. Make a list of the foods typically eaten by the people in that country. Include pictures and explanations of what the foods are.
3. Gather recipes for some common dishes from that country.
4. Compare and contrast food in your chosen country with the foods we eat in Northern Ireland. How are their foods different? How are they the same?
5. What foods do they use for celebrations?

Check out these links:

<https://www.food4life.org.uk/learning-areas>  
<https://www.foodafactoflife.org.uk/>

<http://www.shakeupyourwakeup.com/why-is-breakfast-important>  
<https://www.foodafactoflife.org.uk/11-14-years/cooking/videos/>

You could also research the life and work of Louis Pasteur (who invented pasteurisation which is used to preserve milk) – this relates to the 'milk' topic of Unit 3.
